

This is the group email to everyone attending one of our iCore sessions. The Summercore Team (Lynne, Sam and Steve) summercore@gmail.com

Free Apps to Install Prior to iCore

Note #1: The ones marked * are less important and will not be used until day two

Note #2: However, some of you are from schools that are managed by your tech dept and you do not have access to the Apple ID password. If you are in that situation, it is important you have someone install all the * apps before you come to iCore. If this is impossible, let us know and we may be able to loan you an iPad with these apps for the two days

Note #3: When installing an app, you do not have to wait and watch while it downloads. Instead you can push the HOME BUTTON and go back to the App Store and start downloading a second app while the first app is being downloaded. You can do this repeatedly and download 10 apps or more at the same time.

Amazon • Dropbox • Evernote • Google Drive

Apps that are not free that we highly recommend: This is just FYI and not part of iCore. If we choose to highlight these apps at iCore, we will do it in "projector mode" because we have no expectation that you have them on your iPad. **Explain Everything • iMovie • Notability**

Reminder to bring a pair of headphones or earbuds to iCore!

One more to install -- called Classkick -- but you don't get it from the app store. From Andrew and Peter to iCore Participants

Hi iCore attendees,

To get the app, go on the web to **beta.getclasskick.com** on your iPad. This will redirect you to rink.hockeyapp -- a secure service. Tap the "Install" button, and any further INSTALL and CONTINUE prompts. You're ready to go!

Can't wait to hear from you, Andrew and Peter +1.312.798.9620
